EDUCATION

Master's Degree in Cybersecurity
Instituto Europeo de Posgrado (IEP)
2025 – 2026

Higher Technician Diploma in Web Application Development (DAW)
IES Julián Marías
2021 – 2023

Vocational Technician in Electrical and Automation Installations
IES Julián Marías
2019 – 2021

SKILLS

DEVELOPMENT

- Python
- JavaScript / TypeScript
- Angular
- Node.js
- REST APIs
- Git / version control

DATA & IOT

- Databases (InfluxDB, SQL)
- IoT environments
- Automation & data acquisition
- WordPress

CYBERSECURITY

- Risk analysis & management
- Security controls implementation
- Threat detection & mitigation
- ISO 27001

LANGUAGES

Spanish Native
English Intermediate

PROFILE

Full stack software developer with hands-on experience in real R&D environments, specialising in web applications, hardware–software integration and data acquisition systems for IoT. Proficient in Python, JavaScript/TypeScript, Angular and Node.js, applying strong security practices to data design and protection. Holds a Master's Degree in Cybersecurity, adding a comprehensive information security perspective to a technical profile oriented towards IT roles.

EXPERIENCE

Level 1 Research Technician 2024 – January 2026
Universidad de Valladolid

- Built Python web applications for the real-time visualisation and management of sensor system data.
- Integrated hardware and software in IoT environments and distributed systems, covering the acquisition, processing and visualisation of sensor data.
- Applied artificial intelligence techniques and security best practices to control and protect the generated data.

Full Stack Developer March 2023 – July 2023
ZG Service

- Developed web applications with Angular and Node.js, including REST API implementation and business logic.
- Managed InfluxDB databases for the processing and storage of time-series data.
- Built and maintained corporate websites with WordPress.
- Collaborated in agile teams, using version control (Git).

CERTIFICATIONS

Internal Auditor for Information Security Management Systems
ISO 27001:2022 standard — IEP / CUA

Online Master's Programme in AI & Innovation
Founderz & Microsoft — 2026

Online Master's Programme in AI & Innovation — Automation Specialisation
Founderz & Microsoft — 2026
